

Do you enjoy taking on an interesting job in our specialized flow measurement company?

In our calibration laboratory, we offer you intensive on-the-job training in a competent team with responsibility from day one.

Trigas is one of the leading specialists in flow measurement technology. Our services and products find worldwide recognition and customers.

With our steady growth in the last 35 years, we offer you a secure workplace with individual development opportunities.

We are looking for:

**Electronics Technician / Mechatronics Technician as Calibration Technician (m / f)**

Do you enjoy taking on an interesting job in our small but very specialized company? In our calibration laboratory, we offer you intensive on-the-job training in a competent team with responsibility from day one as well as challenging development opportunities in an internationally operating small business!

**Your tasks:**

- Calibration and adjustment of flow meters
- Repair and programming of electronics
- Creating calibration certificates

**Your profile:**

- You have successfully completed a technical education as an electronics technician or mechatronics engineer.
- You have already gained your first work experience.
- Good knowledge of MS Office applications
- High team ability
- Careful work
- Willingness to go on occasional business trips
- English skills would be an advantage

Please send your detailed application by e-mail to: [personal@trigasdm.com](mailto:personal@trigasdm.com)

If you have any questions, please contact our Mr. Sebastian Rose: + 49-8165 9999-339.

We look forward to receiving your application!
